## ADMINISTRATIVE COUNCIL

### Minutes of the 123rd meeting held on 15th June 2011 in Seoul – Korea

The President opened the meeting at 9.00 a.m. with words of thanks to Prof. Ja-Yoon Koo for this invitation from the Korea National Committee. He welcomed everyone present and invited Markus Berger as recently appointed representative for Belgium to introduce himself.

Prof. Koo briefly presented the energy outlook in his country showing the outstanding technical evolution over the last 40 years.

#### 1) Technical Committee Report Ref. Doc. AC 11-02

Klaus Fröhlich reported on the action of the Technical Committee over the last year. His report covered the following items: TC Projects, system aspects involving MV-LV, work on CIGRE's image and procedures, operation of the Study Committees and Working Groups.

- "Network of the Future" project - 2 models for the future development of the system had been identified: large networks for bulk transmission and clusters of small self contained distribution networks. A blend of both models would be the likely option.
- "power system efficiency" project – 2 aspects would be followed up: efficiency of equipment and best utilization of the system.
- The procedures put in place (TORs drawn up and circulated) are closely followed and contribute to the good organization and operation of Working Groups whose numbers are increasing with constantly enhanced output.
- Overall performance of SCs satisfactory and the prevailing good team spirit.

Discussion focused on the way to handle MV and LV considering the role of CIRED. It was finally decided that **a dedicated Working Group would be created.**

## 2) Study Committee Chairmanship renewal in 2012

### Ref. Doc. AC 11-03

It was recalled that the process consists in an inquiry with the members of each SC concerned, and with the outgoing Chairs. Good geographical distribution of chairmanship seats is one of the choice criteria and candidates must have the support of their NC and/or Company. Length of term was 4 years. The rules provided for a possible two-year extension which allowed staggering renewals. Chairmanship changes would concern the following: A3, B5, B3, C3 and C4.

The following list for SC Chairs for 2012 was recommended:

## 3. Financial situation

### 3.1. Statement of Accounts – Ref. Doc. AC 11-04a

The document was presented by the Secretary General and by the Treasurer. The accounts had been checked and were approved by the Statutory Auditor.

The Treasurer commented on the higher negative result than expected which was accounted for by the operation of 2 Secretary Generals over six months with related travels. Also, costs were rising and he advocated revision of the freeze policy decided 10 years back.

**The Admin. Council approved the Statement of Accounts and recommendations as set forth in the document.**

### **3.2. Budget - Ref. Docs. AC 11-04b and 04c**

Discussion focused on exceptional expenses which were set forth. These concerned a number of investments to be made: website redesign, lawyers' fees, work on the History of CIGRE book, funding of NC activities. Need to depart from the policy of freezing membership and registration fees, on account of fast rising costs and necessary investments was agreed. The possibilities for cuts were raised and discussed.

The basic principles of the 2012 budget put forward was supported but **a new paper should be drawn up based on a 3000 people for Session attendance and giving cost containment options. It would be forwarded to Admin. Council members for final approval by end of August 2011. The budget figures once approved would apply and not be exceeded. Any intended excess of 10% and above should be reported to the Officers and Steering Committee for approval.**

The President informed members that two NCs were about to be revived after many years of absence: Turkey and Vietnam.

#### **7. ELECTRA / Publications Ref. Doc. AC 11-09**

Scientific Papers section launched. If successful they will be the object of an electronic journal. Invited papers still slow coming.

An inquiry will be posted on the website to assess the proportion of membership in favour of an electronic version of ELECTRA replacing the paper format. Members will have to choose between one or the other format. Some NCs may choose to inform their members directly.

**A Steer.Com. group with wide coverage including budget, and assuming governance responsibility over the project was appointed. Convener: Richard Bevan, members: Clark Gellings, Klaus Fröhlich and François Meslier.**
